

For your Safety

Civil Protection Test Alarm

all over Austria

on Saturday, 7th October 2017, between 12:00 a.m. and 01:00 p.m.

Austria has a nationwide warning and alerting system. It is possible to warn or alert the population in case of emergency with more than 8000 sirens.

To familiarize you with the civil protection signals and at the same time to test operability of the warning and alert system once a year

a Civil Protection Test Alarm is carried out all over Austria,

operated jointly by the Federal Alarm Centre at the Federal Ministry of the Interior and the offices of the governments of the Federal Provinces.
